Advanced/ Adventure Open Water Diver

Cape Town, South Africa

Many unique diving opportunities exist outside the limitations of a PADI Open Water Diver. Upon completion of the Advanced Open Water Course, you will be able to dive down to 30m and be certified to dive at additional dive locations worldwide. The Advanced certification also serves as a prerequisite for many of the other PADI certifications including Rescue Diver, Instructor and Dive Master. As an Advanced Diver student, you will be able to customize your training path and learn various underwater tasks that will broaden your awareness of the environment and increase your capabilities as a diver.

This course has two different options. A diver who completes any three Adventure Dives will earn a PADI Adventure Diving Certification. If you desire to complete the Advanced Diver Certification, you must complete one Deep Dive training session, and the Underwater Navigation session in addition to the three previous Adventure dives.

Adventure Dives

- Altitude Dive
- AWARE - Fish Identification Guide
- Boat Dive
- Deep Dive
- Diver Propulsion Vehicle
- Drift Dive
- Dry Suit Dive
